    (craig.jessen@anderson.ucla.edu)

• Students must take Econ 291A
• Students must take one empirical class
• Every student must write a field paper by the end of the second year and receive a passing grade. The topic may be chosen from any one of the courses that make up the field
• Students are required to attend the finance seminar at the Anderson School of Management each week.
• Students are required to attend the Macroeconomics Proseminar
Additional Guidelines

- A class taken for another field cannot count simultaneously for the Asset Pricing field, or for the empirical requirement of the Asset Pricing field.
- Students must receive a passing grade in their field paper due July 31, 2023 to Chiara Paz by email (chiara@econ.ucla.edu) before advancing.
- At the end of the summer every student is expected to advance to candidacy (ATC) by presenting an oral defense of a thesis topic to a committee. That committee should consist of a main advisor, two additional faculty from the Economics Department and one external member from an outside department. Normally, a thesis topic for Asset Pricing will build upon on the second year paper. Students are strongly recommended to choose a main advisor at the beginning of summer. That advisor will guide the student through the ATC process and help pick the other members of the committee.
