## Pre-Major Requirements

- All pre-major and major courses must be taken on a letter grade basis.
- You are allowed to repeat a maximum of two pre-major courses (provided you earn a grade of “C-” or lower in them) and you may repeat those courses one time only. Repetition of more than two pre-major courses or of one pre-major course more than once will result in automatic denial of admission to the major.
- Students should apply for the major the quarter after completing the pre-major courses by filling out the Econ Major Request Form found on our Econ-Counseling Bruin Learn site. Make sure that all of your grades have officially posted on your Degree Audit Report (DAR) when you apply for the major.
- You must be in good standing at UCLA (2.0 minimum cumulative UCLA GPA and not on Academic Notice or Subject to Dismissal) at the time you apply in order to be officially admitted to the major.
- Your upper division major GPA must be a 2.0 minimum and you must have earned a “C-” minimum in Economics 101, 102, 103/103, and/or 104/104L if you have completed any of these courses prior to applying for the major.
- You may apply to the Econ major whether your pre-major is Pre-Econ or Pre-Bus Econ.
- You are permitted to enroll in most upper division economics courses prior to being admitted to the major provided you have completed the prerequisites. Exceptions include Economics 106 courses (officially in Bus Econ on First Pass and officially in Econ or Math/Econ Second Pass) as well as some courses that require an application.

## Major Requirements

- Prerequisites for all Econ courses are enforced unless otherwise noted via Econ-Alert.
- No PTE numbers are issued for any Econ courses. If you cannot enroll in a course for which you have satisfied the prerequisites and enrollment rules, please contact us.
- Economics 11, 101 and 102 must be taken in sequence. We recommend that you take Economics 11 and 101 in successive quarters, however, this is not mandatory.
- Economics 41, 103/103L, and 104/104L must be taken in sequence. We recommend that you take them as close to one another as possible, but it is not mandatory.
- We strongly advise against taking Econ 11 and 41 in the same quarter.
- Economics 101, 102, 103/103L, and 104/104L need to be completed with a minimum grade of a “C-” in each course. These core courses can only be repeated once should you earn a C- or lower.
- A minimum grade of “D” is required to satisfy an upper division Economics Elective.
- You must complete the upper division major courses with a 2.0 minimum GPA and you must also earn a 2.0 minimum cumulative UCLA GPA in order to earn your degree.
